Ewe Lamb(s)	3	4 months		

ADDITIONAL COMMENTS (*pedigree / showing / Signet Results etc standard space for all members of 7 lines in total*)

BY COMPLETING THIS FORM YOU ARE CONFIRMING THAT YOUR STOCK IS BIRTH NOTIFIED & ELIGIBLE FOR REGISTRATION

HIRE/LOAN/SWAP: Such transactions are private arrangements between breeders and the breed society takes NO responsibility for the details of hire or loan agreements. However, the SSBA recommends that breeders hiring or borrowing a ram should insure the animal for its full value whilst it is on their farm or holding. The ram **MUST BE REGISTERED** prior to using and it is the breeders (owner) responsibility to ensure the animal is registered prior to hire/loan/swap.

N.B: Please copy this link for full explanation of Scrapie Monitoring http://www.sruc.ac.uk/info/120113/premium_sheep_and_goat_health_schemes . Scrapie Genotype (not to be confused with Scrapie Monitoring) is a blood test to ascertain genotype (ARR/ARR – ARR/ARQ- ARQ/ARQ etc). The national testing scheme has now ceased but some members test privately.

NOTES WHEN COMPLETING THIS FORM – Flock Status to have capital 'Y' only not 'YES' (if left blank this will mean 'No') When completing Breeder and flock details please do not change the pitch & style which have been preset. All details entered by the breeder must be in 'pitch 10 Arial' – All lower case except beginning of names etc eg: Bob Smith not BOB SMITH

PLEASE RETURN COMPLETED FORM TO: Shropshire Sheep Breeders Association, 146 Chandlers Way, Sutton Manor, St.Helens, Merseyside, WA9 4TG / email – shropshire_sheep@hotmail.co.uk or fax – 01744 811124
